

Insurance

Each patient is responsible for their own account. As a courtesy to our patients, we will gladly assist you in submitting information to your insurance company. It is your responsibility to furnish complete information including plan books, claim forms, and telephone numbers. The dental insurance plan you are covered by is a contractual agreement between your employer, yourself and the dental insurance carrier. We cannot accept responsibility for collecting your insurance claim or for negotiating a settlement of a disputed claim. Please remember that insurance companies reimburse the patient for fees paid to the doctor and usually only pays a percentage of the charges. Therefore, it is your responsibility to pay any deductibles, coinsurance or any other balance not covered by your insurance company at the time services are rendered. After 60 days following treatment, if there has been no payment or only partial payment issued on a claim, you will be responsible for the balance of your account at the time. With two insurance carriers (double coverage) we accept the co-payment from the patient and file a claim for the balance due with the patient's insurance company. After this claim is paid to our office, we will then file the secondary insurance and assign the benefits to you.
